Husch Blackwell Named 'Powerhouse' for Product Liability Litigation

Husch Blackwell's Mass Tort & Product Liability practice group was recognized by BTI Consulting as being one of four 'powerhouse' law firms for product liability litigation.

Overall, BTI recognized 22 law firms for inclusion in its annual product liability ranking based on survey results from corporate counsel. The results are included in the company's *BTI Litigation Outlook 2022* report. BTI called the practice area "one of the most competitive segments of litigation and clients see a broad swath of law firms vying for this work."

The *BTI Litigation Outlook 2022* is based solely on more than 350 in-depth telephone interviews with leading legal decision makers.

"Our team has grown considerably during the pandemic, highlighted by the arrival of a 21-lawyer team in California, which prompted our firm to launch offices in Los Angeles and the San Francisco Bay Area in April 2021," said Brandan Mueller, the head of Husch Blackwell's Mass Tort & Product Liability practice group. "Our clients appreciate the depth our team provides and the consistency of our approach across multiple offices, multiple jurisdictions, and multiple case portfolios."
