# 2024 Pro Bono & Community Impact Report

In 2024, our attorneys and business professionals collaborated to address critical issues and make a meaningful impact in communities nationwide. By tackling pressing social challenges, supporting vital causes, and uplifting those in need, we built on more than a century of pro bono work—carrying this legacy forward by leveraging our collective strengths through ongoing community engagement and philanthropy.

This past year, we supported our communities by:

donating 23,422 pro bono hours, totaling \$12.1M in value

assisting 123 underrepresented entrepreneurs and small businesses through our Communities for Change initiative

donating more than \$2M to nonprofits across the country

participating in 2,349 volunteer hours across a variety of firm-sponsored projects

Our 2024 Pro Bono & Community Impact Report highlights the stories behind these efforts.
