OVERVIEW

Brynna is passionate about helping clients provide safe, reliable and renewable energy.

Brynna guides clients' renewable energy projects from inception to commercial operation. She has a wide range of experience spanning development, construction, financing and transactional matters. Developers, tax equity investors and lenders are among the clients she represents in the acquisition, funding and financing of wind and utility-scale solar projects throughout the country.

In the complex and ever-changing energy production and sustainability industry, Brynna works closely with clients to understand the unique details of each transaction from a legal and business perspective. As part of her practice, she prepares and negotiates principal transaction and financing agreements and advises on related corporate issues. She also assists with state and federal permitting requirements when needed.

Clients also turn to Brynna for a broad array of complex real estate questions. Brynna counsels sellers, purchasers, developers, tenants and landlords on real estate projects of all sizes and kinds, including the development, acquisition, disposition, financing, operations and leasing of office, retail and multifamily projects. She also guides clients on a variety of corporate matters, including review, drafting and negotiation of contracts for professional services.
