

Anna R. Kimbrell

PARTNER

KANSAS CITY, MO

PHONE: 816.983.8358

EMAIL: ANNA.KIMBRELL@HUSCHBLACKWELL.COM

OVERVIEW

From start to finish, Anna guides clients through every phase of renewable energy projects.

As leader of the firm's Energy & Natural Resources team, Anna primarily represents developers and owners in the acquisition, development, funding and financing of wind and solar projects across the country. Anna takes a holistic approach to wind and solar energy project development, representing clients from inception through real estate needs, operations, and disposition.

She focuses half of her practice on project development, working with clients from early-stage greenfield efforts through permitting, site design, landowner engagement and local approvals to ready projects for construction and financing. The other half of her practice is devoted to transactional deal work, representing buyers, sellers and sponsors in the acquisition, sale, financing and investment of renewable energy projects.

Her comprehensive practice provides a unique perspective that allows her to anticipate future requirements and implement

Partner | Chief Legal Officer, Swift
Current Energy

efficiencies to streamline the development process and ready the project for financing or sale. Likewise, her in-depth understanding of project development gives her an edge in negotiating purchase, sale and financing transactions and ensuring a practical and rational approach is taken.

Experience

- Led the counsel team for Swift Current Energy in the acquisition, development, and financing of the 197 MW Castle Gap Wind project located in Mills and Lampasas counties, Texas. The Husch Blackwell team provided comprehensive support across real estate, permitting, environmental, and regulatory matters throughout the transaction.
- Advised Liberty Utilities in negotiating a build-transfer agreement, purchase, and tax equity financing for a 10 MW solar facility in Nevada. The team assisted with all aspects of real estate, environmental, and permitting issues during the transaction.
- Counseled Arevon Energy in the development and financing of the 73 MW Heirloom Solar project in Pike County, Indiana. The Husch Blackwell team supported the client through real estate, permitting, and regulatory processes from project inception through financial close.
- Represented Swift Current Energy in closing a tax equity investment from Google for the Double Black Diamond Solar project, an 800 MWdc (593 MWac) facility in Illinois. The Husch Blackwell team advised on real estate, permitting, and regulatory matters for the project, which is expected to be the largest solar facility east of the Mississippi River and the second-largest single-phase solar project in the United States.
- Represented Swift Current Energy as project development counsel through development and sale of a 185 megawatt wind farm in Illinois.
- Represented Liberty Utilities in purchase and tax equity financing of a 50 megawatt solar facility in Nevada.
- Represented Tenaska as project development counsel from early-stage site control efforts through financing of a 242 megawatt wind farm in Missouri.
- Represented Algonquin Power Co. in acquisition, development and tax equity financing of a 75 megawatt Great Bay Solar Project in Maryland.

Experience

- Represented CorEnergy Infrastructure Trust in purchase of a subsea, midstream pipeline system and related onshore facilities in Louisiana for \$245 million, including related leaseback transaction.
- Advised developers and owners in early and mid-stage solar and wind project development in 49 states.
- Represented many key renewable energy project lenders and tax equity investors as local counsel for real estate, permitting, and other state and local matters for projects throughout the country.
- Represented South Central MCN, LLC (a subsidiary of GridLiance) with respect to its acquisition of Tri-County Electric Cooperative's electric transmission facilities.
- Led developer's counsel team for Swift Current in the closing of debt financing and a tax equity commitment for a 266 MW solar project located in Southeast Texas. The Husch Blackwell team assisted in the areas of real estate, environmental and permitting, and electric regulatory throughout the purchase, development, debt financing, and funding stages. The transaction was structured to reflect the new U.S. Inflation Reduction Act policy guidance.
- Served as project development and local counsel to Arevon through the development and debt financing of 228 MW Posey Solar Project.
- Represented Swift Current Energy in closing a tax equity investment from Google for the Double Black Diamond Solar project, an 800 MWdc (593 MWac) facility in Illinois expected to be the largest solar project east of the Mississippi River and the second-largest single-phase solar project in the U.S.
- Assisted Arevon Energy in the closing of financing for the 251 MW Gibson Solar Project in Indiana, serving as project development and local counsel.
- Assisted Arevon Energy in the closing of a \$500 million financing package for the 430 MW Kelso 1 & 2 Solar Projects in southeastern Missouri.

Experience

- Assisted Arevon Energy in the closing of financing for the 228 MW Posey Solar Project in Southern Indiana.
