HUSCH BLACKWELL

Myers Dill

OFFICE MANAGING PARTNER

ST. LOUIS, MO
PHONE: 314.345.6236
EMAIL: MYERS.DILL@HUSCHBLACKWELL.COM

OVERVIEW

Myers focuses on anticipating clients' needs and coordinating resources across the firm to deliver practical, timely solutions. An IP practitioner, he helps clients gain a competitive advantage through tactical patent portfolio management and strategically negotiated technology contracts.

As Office Managing Partner of the firm's St. Louis office, Myers helps clients solve problems and meet business goals, anticipating

> *"Husch Blackwell (HB) comes with a great reputation, but most importantly Myers Dill was willing to discuss OUR needs. Myers promised me HB would be available for Keystone Bio as we needed and when we needed. That was extremely important for us. One of the biggest roadblocks to a startup of any kind is the need for exceptional legal structure, while at the same time not becoming cash-poor in the pursuit. Myers and HB were great to work with as Keystone Bio worked through that phase."*

their needs and drawing on relationships across the firm to mobilize resources and deliver practical solutions. His responsive communication and practical, decisive advice make him a trusted resource for both legal and business decision-makers.

Myers partners with in-house legal teams and business leaders to deliver strategic intellectual property solutions that drive business success. Leading a diverse and technically skilled team, he manages patent portfolios and negotiates complex technology agreements, always aligning legal strategies with broader business objectives. Known for his strong team leadership, meticulous organization, and commitment to meeting deadlines, he ensures every matter is handled efficiently and with careful attention to detail.

Myers leverages the latest technology, including AI, to enhance efficiency. However, he believes that exceptional client service comes from proactive support, clear communication, and sound human judgment. Whether clients are navigating IP challenges or pursuing new opportunities, he delivers a seamless, reliable, and positive experience every step of the way.

Experience

- Actively manages patent prosecution estates for leading consumer products companies in industries such as kitchen appliances and accessories, sporting goods, home goods and plumbing fixtures.
- Guided medical research team through proactive LLC to C corporation conversion, seed investment, Series A Investment and subsequent close.
- Guided hydrogen technologies company through two-stage Series Seed/A offering, securing $12.5 million investment from international investors.
- Drafts and negotiates technology and software related agreements on behalf of both publicly traded and privately held clients.
- Assisted clients in navigating transition of IT services to new vendor.

Community Leadership

Myers is passionate about education, particularly in underserved and underperforming communities. While his career plan was always the law, he deferred law school for two years to serve in Teach for America, where he taught middle school mathematics to children from disenfranchised communities. The experience taught Myers how to meet individuals where they are and develop a personalized plan to help them grow and move forward—just as he does with clients today.

Since completing his stint with Teach for America, Myers has served on the Board of Directors for HOME WORKS!: The Teacher Home Visit Program, as well as in the role of Alumni Buddy (CAB) and Alumni Mentor for Teach for America's St. Louis Corps.

As part of his involvement with the St. Louis startup community, Myers also serves on the Arch Grants Global Startup Competition Committee.
