OVERVIEW

Tina serves as a trusted liaison among attorneys, land agents and renewable energy developers.

As a real estate paralegal, Tina focuses her skills on streamlining the details of complex renewable energy projects. She has decades of experience assisting clients and attorneys, and currently supports the firm's Wind Energy and Solar Energy teams. Tina enjoys routing, reviewing and recording all necessary documents – including titles, surveys and financing certificates. She collaborates with legal teams, land agents, land owners, governmental agents, trustees and construction companies, among others. She is a diligent and experienced project manager, sensitive to competing deadlines so as to make sure client plans continue on track.

Tina is appreciated for her enthusiasm, open communication and ability to embrace cost- and time-saving technology. From blueprint to build, every detail and every signature of each client project is efficiently and carefully handled by Tina.
