OVERVIEW

Eric works closely with in-house counsel and foreign trade teams to help exporters navigate an increasingly complex international trade landscape.

As part of his focus on export controls and trade sanctions, Eric counsels clients on matters involving the Export Administration Regulations (EAR) administered by the Bureau of Industry and Security (BIS), International Traffic in Arms Regulations (ITAR) administered by the Directorate of Defense Trade Controls (DDTC), and economic sanctions administered by the Office of Foreign Assets Control (OFAC). Eric also advises on matters involving the Foreign Corrupt Practices Act (FCPA) and Committee on Foreign Investment in the United States (CFIUS).

Eric guides U.S. and international companies through export licensing and classification requests, voluntary-self disclosures, international trade due diligence, and other regulatory matters. In addition, Eric helps clients navigate internal and external investigations and enforcement actions, as well as internal compliance and training programs. He works with clients in a variety of sectors and industries, including aviation, manufacturing and equipment, cybersecurity, technology, defense contracting, logistics, energy, consumer products, and healthcare.

Prior to joining the firm, Eric served as a member of the court-appointed legal team tasked with monitoring a foreign telecommunications company in the largest export compliance and trade sanctions monitorship in U.S. history. In that role, Eric led and conducted international site visits, investigations, and audits
