OVERVIEW

With an in-house background in the renewable sector, Andrew supports clients' transactional needs in the development and construction of renewable energy and commercial construction projects. He practices from Westfield, Indiana as a member of our virtual office, The Link.

Andrew came to the practice of law with a strong interest in the business world and a goal of working in-house where he could partner with both legal and business teams. Early in his career, he accepted an in-house role with an EPC contractor focused on construction in the renewable energy sector as well as industrial manufacturing facilities. Andrew quickly discovered a passion for the renewable industry: it was truly exciting to be on the cutting edge of the energy of the future, and he loved the positive nature and tangible results of his work.

In a succession of in-house roles with EPC contractors, Andrew gained experience with multimillion dollar EPC agreements as well as other engineering, construction, and equipment supply contracts. He worked frequently with wind, solar, and energy storage projects throughout the construction process before joining Husch Blackwell for broader opportunities to support clients at other stages of project development, such as developers, owners, lenders, and investors. Andrew supports both utility-scale and small-scale wind, solar, battery storage, hydrogen, biogas, carbon capture, and other commercial construction projects all the way from financing to siting and permitting to construction and sale.

HUSCH BLACKWELL

Andrew's experience encompasses the drafting and negotiation of major project contracts, including representing both owners and contractors in EPCs, BOPs, and other major construction contracts, as well as equipment procurement, O&M, and long-term service agreements.

After beginning his career in-house, Andrew is prepared to serve clients as a true teammate who's personally invested in their projects. He readily understands the business landscape, the complexity of business needs and goals, and the challenges of working with a variety of internal stakeholders. He aims to provide clients with the same quality of support he offered as an in-house team member.

Case Studies

Empowering Change: Zero Electric's Journey with Communities for Change and Husch Blackwell

HB Communities for Change initiative assists Zero Electric to secure a charging station, build it out, and develop the technology they will store at the station.

Helping Minority- and Veteran-Owned Business Secure a Game-Changing Contract

Through the Communities for Change initiative, our attorneys helped a clean energy design/build firm negotiate and secure a multimillion-dollar contract.

Experience

EPC

- Representing a contractor in negotiating an EPC agreement for an 80 MW solar project.
- Representing an owner/developer in negotiating an EPC agreement for a solar project in Texas.
- Advised and counseled solar developer to prepare their EPC agreement forms for RFPs.
- Counseled developer of an anaerobic digestion plant and biogas upgrading plant regarding a contractor's EPC agreement.
- Negotiated agreements for rooftop solar projects on commercial buildings.

Experience

- Supported the preparation of construction management agreements for the construction of a renewable natural gas project and a transmission line.
- Facilitated review and redline of EPC agreement to construct a transmission line in Colorado.
- Supported the preparation of and negotiation of a master professional services agreement and an engineering services agreement on behalf of a developer for a renewable natural gas facility.

O&M

- Representing an owner/developer in negotiating an O&M agreement for a solar project in Texas.
- Negotiated an O&M agreement for a 593 MW solar project in Illinois.
- Negotiated an O&M agreement for a 99 MW solar project in Mississippi.

EQUIPMENT PROCUREMENT/SUPPLY

- Facilitated the review and negotiation of several module supply agreements.
- Negotiated an equipment supply agreement for spare parts with an inverter supplier.
- Negotiated the purchase and delivery of a transformer on behalf of a solar developer.

CONSTRUCTION AGREEMENTS

- Supported the construction contract review of a hotel renovation, apartment building construction, manufacturing facility, and residential home construction.

EV CHARGING

- Negotiated a national agreement for an operator, servicer, and installer of EV Charging Stations to service and install EV Charging Stations.
- Prepared a construction agreement for an owner of an EV Charging Station in Texas.
- Prepared general and state-specific EPC and subcontract forms for contractor that builds electric vehicle charging stations for buses.

Experience

IN-HOUSE EXPERIENCE

- Supported contracting needs for utility scale renewable energy projects, including solar, wind, and battery storage.
- Supported \$1.5 billion operation throughout North America of utility-scale renewable energy projects as well as other complex production facilities in sectors such as power, chemicals, paper, and water.
- Drafted, reviewed, and negotiated various kinds of agreements, including multimillion dollar EPCs, engineering, construction, and equipment supply contracts for contractors and subcontractors.
- Advised project operation teams to address issues as they arose on-site during project construction.
- Representative **solar** experience includes:
 - Lead negotiations, on behalf of an EPC contractor, of an EPC agreement for a 50+ MW and 100+ MW solar project with Engie.
 - Represented an EPC contractor in five utility-scale solar EPC projects with Silicon Ranch.
 - Lead negotiations, on behalf of an EPC Contractor, an EPC agreement for Texas solar project with Swift Current.

-

Experience

- Representative **wind** experience includes:
 - Represented an EPC contractor and lead their EPC negotiations for a 110 MW wind project with Algonquin.
 - Represented an EPC contractor and lead their EPC negotiations for two wind projects of 225 MW and 295 MW with Apex.
 - Represented an EPC contractor and lead their EPC negotiations for a wind repowering project with Vitol.
 - Represented an EPC contractor and lead their EPC negotiations on a Texas wind project with Swift Current.
-
- Representative **battery storage** experience includes:
 - Represented an EPC contractor and lead its negotiations for a Master Construction Services Agreement for a battery storage project with Jupiter Power.
-

Experience

- Representative **industrial** experience includes:
 - Represented an EPC contractor and lead its EPC negotiations for a chemical manufacturing facility for KMG Chemical.
 - Represented an EPC Contractor and lead its EPC negotiations with an industrial powder manufacturer.
 - Represented an EPC Contractor as co-counsel in its EPC negotiations with a containerboard manufacturer.
 - Represented an EPC Contractor as co-counsel in its EPC negotiations for a Coal Combustion Residual Treatment project with LG&E.
-

Education

- J.D., University of Georgia School of Law
- B.S., College of Charleston, Honors College

Admissions

- North Carolina
- Colorado
- Indiana
